

Open positions in the EuPRAXIA Doctoral Network

EuPRAXIA is the first European project that develops a dedicated particle accelerator research infrastructure based on novel plasma acceleration concepts and laser technology. To fully exploit the potential of this breakthrough facility, advances are urgently required in plasma and laser R&D, studies into facility design and optimization, along a coordinated push for novel applications.

EuPRAXIA-DN is a new MSCA Doctoral Network for a cohort of students that will carry out an interdisciplinary and cross-sector plasma accelerator research and training program supporting this new research infrastructure.

Each student will benefit from a wide-ranging training between universities, research centers and industry that will take advantage of both local and network-wide activities.

Excellent salaries will be offered.

Application deadline:
31st January 2023
